cool game for only 0,99 cents is really good!. cons there is nobody in multiplayer lobby i get dizzy after playing it for 2mins there aren't a lot of levels pros nice music cheap. Jesus loves humanity, he loved them so much that he sacrificed himself for their sins, this game is a sin, that means his sacrifice was in vain.. For a 99 cent port of an indie game from the Xbox Marketplace, this game was actually really fun to play. Although, yes, it is clearly not a finished game, and I beat it in only about 2 hours, it was an absolute blast for the two hours it lasted.. The visuals are pretty, atmosphere relaxing, and gameplay flows smoothly. Lots of appearance customization.. Played 40 mins of this and it was just full of crashes in the server with my friend I got screenshots of the crash notes here : <http://steamcommunity.com/sharedfiles/filedetails/?id=753779177> I loved the idea of going in to portals and raiding the different areas and fighting bosses with friends but the game doesn't run well at all.. for 99 cents it's a pretty good game. fak this. A nintey cent candybar or this game seeing as the game doesn't do a single new thing and is around an 1hr of click dead click dead click and you win I woul dchoose the candybar.
